Subject: stolen car report

Gentlemen,

I called the Fortuna police department this morning to tell them that the car was not missing after we talked to the dealer. The dealer said that we should call Brad Greene to find out what was going on. I am confused why Scott Lafleur agreed that I should call the police and began a stolen car report if GE transferred Rob's new car to someone else. Why didn't GE simply call and let us know what was going on with Rob's car? Also what should I do with Rob's car that is here at our house?

Please let me know as soon as possible.

Kelli A. Delsman
